

## About us

### Our companies:

#### *Vitrotest Bioreagent LLC*

Vitrotest Bioreagent LLC company was established in Kyiv in 2018 as a result of the reorganization of NPK Vitrotest Ltd. (was founded in 2006) with the acquisition of new investments. It produces ELISA test-kits for the diagnostics of infectious human diseases, and in March 2020 began producing test-kits for the diagnostics of COVID-19.

#### *Vitrotest Europe Sp. z o.o.*

In 2020, a team of scientists together with partners from the "Kvarko" fund established the company Vitrotest Europe Sp. z o.o., to promote the production of ELISA kits. In the same year, the company received a grant from the European Union and the National Center for Research and Development for the implementation of a project entitled "Development of new type of synthetic controls in ELISA diagnostic tests on the example of a measles virus infection detection test". Thanks to the grant, we started the production of immunoenzymatic kits in Poland.

In addition, the company represents the Ukrainian producer of immunoenzymatic kits Vitrotest Bioreagent LLC in the European Union.

## Price for ELISA kits Vitrotest

			Price EUR
<b>Helminthiasis</b>			
EL051-96	Vitrotest Ascaris lumbricoides IgG	ELISA test kit for the detection of IgG class antibodies to <i>Ascaris lumbricoides</i>	80
EL066-96	Vitrotest Echinococcus granulosus IgG	ELISA test kit for the detection of IgG class antibodies to <i>Echinococcus granulosus</i>	80
EL058-96	Vitrotest Toxocara canis IgG	ELISA test kit for the detection of IgG class antibodies to <i>Toxocara canis</i>	80
EL067-96	Vitrotest Trichinella spiralis IgG	ELISA test kit for the detection of IgG class antibodies to <i>Trichinella spiralis</i> /	80
<b>Borreliosis</b>			
EL084-96	Vitrotest Borrelia IgG	ELISA test kit for the qualitative and semiquantitative determination of IgG class antibodies to <i>Borrelia burgdorferi sensu lato</i>	85
EL085-96	Vitrotest Borrelia IgM	ELISA test kit for the qualitative and semiquantitative determination of IgM class antibodies to <i>Borrelia burgdorferi sensu lato</i>	85
<b>COVID-19</b>			
EL039-96	Vitrotest SARS-CoV-2 IgG	ELISA test kit for the qualitative and semiquantitative determination of IgG class antibodies to coronavirus SARS-CoV-2	92
EL034-96	Vitrotest SARS-CoV-2 IgM	ELISA test kit for the qualitative determination of IgM class antibodies to coronavirus SARS-CoV-2	92
EL038-96	Vitrotest SARS-CoV-2 Total Ab	ELISA test kit for the qualitative determination of total antibodies to coronavirus SARS-CoV-2	98
EL040-96	Vitrotest SARS-CoV-2 IgG QuantiSpike	ELISA test kit for the quantitative determination of IgG class antibodies to coronavirus SARS-CoV-2 Spike protein	98
<b>Helicobacter pylori infection</b>			
EL098-96	Vitrotest Helicobacter pylori IgG	ELISA test kit for the qualitative and semiquantitative determination of IgG class antibodies to <i>Helicobacter pylori</i>	85
EL099-96	Vitrotest Helicobacter pylori IgA	ELISA test kit for the qualitative and semiquantitative determination of IgA class antibodies to <i>Helicobacter pylori</i>	85
EL046-96	Vitrotest Helicobacter pylori CagA IgG	ELISA test kit for the quantitative and semiquantitative determination of IgG class antibodies to CagA protein of <i>Helicobacter pylori</i>	80
EL047-96	Vitrotest Helicobacter pylori CagA IgA	ELISA test kit for the qualitative and semiquantitative determination of IgA class antibodies to CagA protein of <i>Helicobacter pylori</i>	80
<b>Infectious mononucleosis (EBV)</b>			
EL053-96	Vitrotest EBV VCA IgG	ELISA test kit for the qualitative and semiquantitative determination of IgG class antibodies to capsid antigen of Epstein-Barr Virus	80
EL052-96	Vitrotest EBV VCA IgM	ELISA test kit for the qualitative and semiquantitative determination of IgM class antibodies to capsid antigen of Epstein-Barr Virus	80
EL054-96	Vitrotest EBV EBNA-1 IgG	ELISA test kit for the qualitative and semiquantitative determination of IgG class antibodies to nuclear antigen of Epstein-Barr Virus	80
