Agromex is a B2B supplier of walnuts for the European Food Industry (Bakery, Pastry, Savory and Ice Cream). Our main focus is on customers needs depending, which depend on the type of application. We are a family-owned company and we commit ourselves to create long-term partnerships both with our suppliers and customers through close “win-win” cooperation. We work to provide the right product at the right place and in the right time.

Our vision:

- First of all, we listen our customers to understand their needs
- Pay maximum attention to the details
- Work in synergy with our partners
- Respect the environment and the nature

PROCESSING PLANT IN UKRAINE

In our processing facility we clean, sort and pack walnuts and pumpkin seeds in accordance with HACCP principles

PRODUCTS

WALNUTS SHELLED

Origin: Ukraine

Wild grown and collected by small pickers in countryside. Sustainable and socially important for poor people in small villages. Only rainwater is used. Contains more oil than walnuts grown in orchards and are characterized by intense taste, these factors make Ukrainian walnuts an ideal ingredient for the Food Industry.
