

**Sugar Segment**

- **Quality:** ICUMSA 45
  - **Packaging:** plastic sacks (25-50kg), package (1kg), big bag and in bulk
  - **Terms of delivery:** on an agreement basis
  - **Shipment:** railway wagons, trucks
- **Product:** White granulated sugar of the 1st category made of sugar beets of the harvest of 2022
  - Sugar size crystal sand – sucrose in the form of separate crystals, available in 0.2-2.5 crystal sizes. It is a white, free-running substance with 99,75% content of sucrose. Food product complies with DSTU – 4623:2006 standards.
  - It can be used for industrial use, retail and other purposes.

- ASTARTA is a key sugar market player in Ukraine
- The sugar plants of the company are located in the Poltava, Vinnytsya, and Khmelnytsky regions.
- During the last years, the annual sugar production was at 250-500kt.
- The company actively conducts modernization programmes and implements long-term energy and resources efficiency programmes.
- The competitive advantage of Astarta is the availability of its raw material base – sugar beets grown by the holding’s agricultural farms.
- By-products of sugar production – molasses and granulated pulp – are also in demand.
- The sugar plants of the company are also certified according to seven international management systems: the quality system ISO 9001, the food safety management system (ISO 22000 and FSSC 22000), the environmental management system (ISO 14001), the occupational health and safety management system (ISO 45001). The Novoorzhitskyi, Globynsky and Yareskivsky have certification according to the international standard ISO 50001 “Energy Management Systems”.
- The plants also undergo social and environmental audits at the request of consumers to ensure conformity to international standards systems, such as SMETA 4 Pillar and Coca-Cola Supplier Guiding Principles.

- Among Ukraine's Top 5 agriproducers by land bank and production
- Around 220kha of leased land in seven regions
- Almost 1m of grain and oilseeds output in 2021 (key crops – corn, winter wheat, sunflower, soybeans)

- 22% share of the local sugar market by production
- Sugar plants producing 200-500kt of sugar in 2016-2021
- Bioenergy plant

- 7 grain and oilseeds silos with storage capacity – 562kt
- Self sufficiency for 1.1mt of in-house grain and oilseeds storage
- Transport logistics
- 200 grain rail cars

- 13% of local soybean processing volumes
- Soybean processing plant with crushing capacity 230kt annually
- 128kt of soybean meal and 32kt of soybean oil output in 2021

- Cattle farming
