

**Welcome to**

**KAMYANKA  
MACHINE-BUILDING PLANT**

# Our History:

- Kamyanka Machine-Building Plant, located in the Cherkasy region, was founded in 1936 as the leading state-owned producer of chemical pumps.
- Since 1964 the Company has started collaboration with Barmag AG, Germany. The plant's renovation was carried out according to Barmag AG plan and recommendations. In addition, all staff members were trained by experts in the subtleties of the technology.
- The plant underwent privatization in 1998, becoming an LLC, and has since undergone modernization efforts, in order to stay up-to-date.
- To now the company employs 200 people, produces more than 50 types of metering and hydraulic pumps, ~6000 shipped pumps per year, and offers various options for contract manufacturing.

# Products and Services

## *Foundry*

- Iron casting: up to 350 kg
- Steel casting: up to 200 kg
- Color casting: up to 50 kg

## *Heat Treatment*

- Dimensions up to 600x600x900 mm, weight up to 800 kg
- Annealing, tempering, quenching, and more
- LPC (vacuum carburizing) option
- Quenching, heating in gas and isothermal cooling

## *Pumps*

- Metering
- Hydraulic
- Spinning
- Spin finish

## *Custom Parts*

- Production of parts according to drawings of any level of complexity
- All types of metalworking, CNC machining centers
- High processing accuracy

# The main product line - Metering Pumps:

## *Textile*

For Man-made/Synthetic fibers/filaments production machines:

- Viscose/Rayon
- Lyocell
- Acetate Cellulose
- *Polyester*
- *Nylon*
- *Acrylic*
- *Kevlar*
- *Aramide (PPTA)*
- *Spandex*
- *Polyacrylnitril(PAN) etc.*

## *Industries*

### *Plastic*

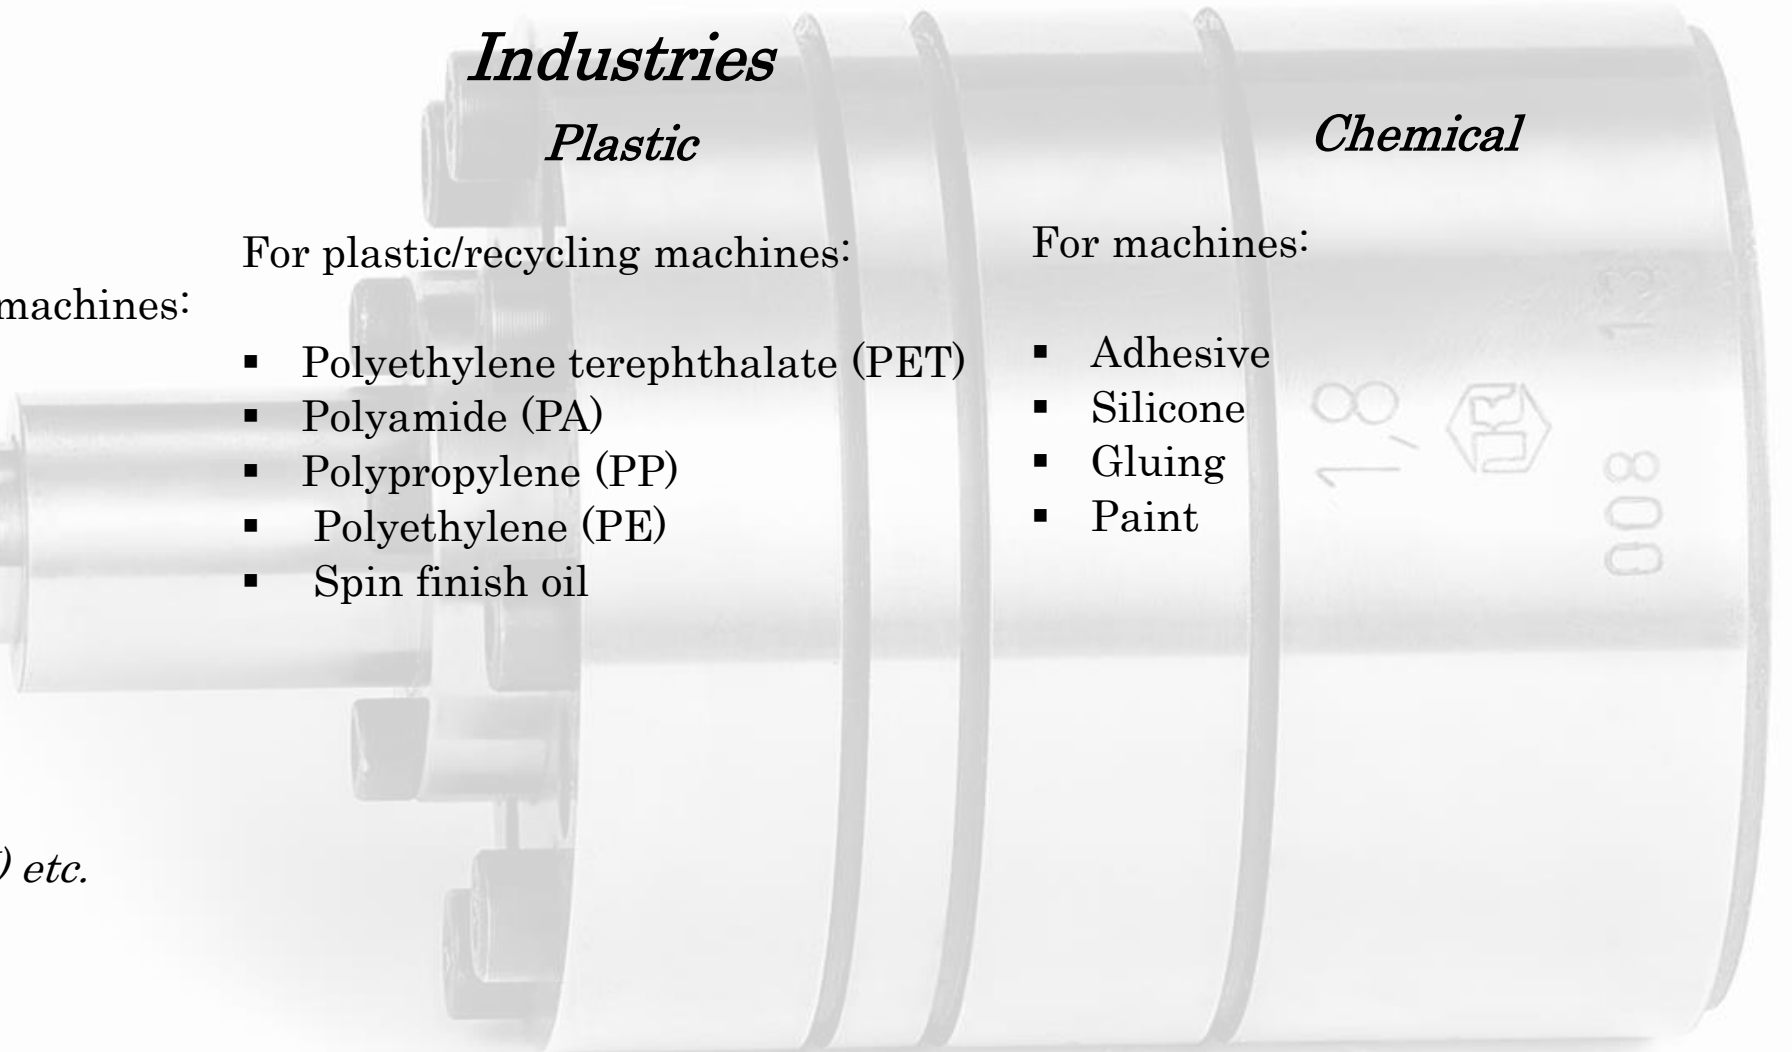

For plastic/recycling machines:

- Polyethylene terephthalate (PET)
- Polyamide (PA)
- Polypropylene (PP)
- Polyethylene (PE)
- Spin finish oil

### *Chemical*

For machines:

- Adhesive
- Silicone
- Gluing
- Paint

# Hydraulic pumps:

## *Industries*

### *Metallurgy*

- For hydraulic systems

### *Mining*

- For crushers
- For mining combines/  
excavators
- For stationary oil  
stations

### *Petroleum*

- For oil refineries
- For oil depot
- For heavy fuel oil  
refineries

### *Construction*

- For crushers
- For oil stations
- For hydraulic  
systems

# Machinery and Equipment

- FORMING LINE REIßAUS & BAUMBERG MASCHINENBAU GMBH;
- HEAT TREATMENT LINE VECTOR 15VP FURNACE BY SECO/WARWICK
- DECKEL MAHO GERETSRIED DMC 60 H
- NAKAMURA SUPER NTX (S)
- WEMA GLAUCHAU SBZ 3

AND MORE THAN 500 OTHERS.

## We offer:

- Product customization. We select the best option for each request to maintain our customers' production quality while reducing their production costs
- Certificated high-quality products
- Flexibility of production volumes
- Free of charge test items
- Warranty
- Post-payment
- Fast order fulfillment
- Quality control system (laboratory; OGP Smartscope ZIP 250 with ZONE3, etc)
- Comprehensive support
- Warehouse in Poland
